EXISTS IN : BLACK

DESCRIPTION :

The UAG Bluetooth Keyboard Tablet Case is the perfect solution for those who demand the best of both worlds: protection and productivity. Featuring a durable TPU construction our Bluetooth Keyboard case is military drop certified and designed for the real world. The precise fit ensures a snug and secure fit for your tablet. Our spill-resistant keyboard shields your tablet from unexpected spills. With spacious contoured keys, you'll enjoy a comfortable and efficient typing experience. Navigate with precision using the integrated trackpad. The smooth, protective folio cover features a secure magnetic closure. Easily adjust your viewing angle with the built-in hinge. Keep your Apple Pencil close and secure with the built-in holder. Bluetooth connectivity delivers a quick and hassle-free pairing process with your tablet. The long-lasting rechargeable battery and a convenient USB-C charging port ensure you stay powered up throughout your day. Whether you're an on-the-go professional, an outdoor enthusiast, or a student, this case will keep your tablet safe and allow you to work or play without limits.
