DESCRIPTION :

The minimalist yet purposeful design of the Compact Sleeve With Woolenex perfectly protects and complements the slim, streamlined shape of the MacBook, while its durable material ensures a long-lasting product.

We've created this Compact Sleeve with our refined and durable Woolenex material, woven from 300D and 600D polyester, which retains its slim shape with the high tensile strength of ballistic nylon, meaning you can use it consistently for long periods of time. The unique weave results in a lightweight, durable fabric with a beautiful depth of colour. Inside, the soft, padded faux leather lining carefully protects your MacBook from bumps and scratches during transport. Plus, the opening's Vislon zip closes securely to keep your MacBook inside.
