Ultra-Wide fit screen protector

REF : PG-2837

EAN : 5711724028373

EXISTS IN : CLEAR

DESCRIPTION :

A new star in screen protection is born! Ceramic Protection from PanzerGlass® is an out-of-this-world screen protector that sets a new standard for durability! It's 5 times stronger than our strongest screen protector to date. Or to put it in impact terms: You can drop a 320 g steel ball from 2.5 meters onto the screen protector without breaking it! It even has a smudge-free coating that reduces traces of fingerprints and grease.

The screen protector is made of certified Japanese glass-ceramics from Ohara. Glass-ceramics is one of the world's most scratch-resistant materials and contains imbedded crystals, invisible to the naked eye, that prevent cracks from spreading, enabling a level of strength that can't be achieved with conventional glass. And as if that wasn't enough, the transparency of the glass is second to none thanks to Ohara's nano-crystallization technology.

The enclosed EasyAligner makes installation a piece of cake (seriously!), and to make it even easier, PanzerGlass have included step-by-step instructions as well as a QR code for quick access to their online how-to video. And remember: Once the screen protection is applied, you'll never again fear the sight of your phone tumbling to the ground screen first.

The screen protector has an Ultra-Wide Fit, which means that it covers the front surface of your phone, providing you with a complete view of your beautiful phone screen while still leaving a little room around the edges for a PanzerGlass® case. And if you want an extra level of phone protection, combine the screen protector and case with a PanzerGlass® PicturePerfect or Hoops™ camera lens protector.

STRENGTHS :

- 5x stronger than diamond-strength glass
- FSC™-certified packaging
- Ultra-Wide Fit

- Drop protection

COMPATIBILITY :

iPhone 15
