

PLUGBUG 120W WHITE

Wall charger Find My 120W 4 ports

REF : TW-TS-2446

EXISTS IN : WHITE

DESCRIPTION :

PlugBug is the world's first compact USB-C charger built with Find My inside. So when your PlugBug charger is misplaced, borrowed, or buried in your backpack, just tap Find My to track it down - anywhere in the world. PlugBug also has a beautifully unique design and red swoosh that set it apart from a sea of white and black chargers. Power your Apple devices with PlugBug, the smart charger that won't get lost in the shuffle.

Ultra-slim to fit in tight spaces.

PlugBug with Find My has a unique thin design that allows it to fit in places brick-style chargers won't, like the outlet next to your night stand. That slim design and folding plugs also makes PlugBug the perfect travel charger.

Powerfully smart charging.

PlugBug with Find My is a USB-C PD charger, which means it can charge your PD compatible device much faster than a standard USB-C charger. Along with speed, PlugBug detects which devices are being charged and dynamically delivers the right amount of fast charging power to them.

Where's my charger? Found it!

Did I leave it at the office? Is it upstairs? Did one of the kids take it? With PlugBug with Find My, you'll always be able to find your charger. When your PlugBug is missing, launch the FindMy app on your iPhone to see exactly where this compact, powerful charger is hiding. How brilliant is that?
