DESCRIPTION :

BOOMPODS TAG, with its durable, rugged design, is the only fully waterproof, rechargeable tracker made from ocean-bound plastic. It enables you to find lost items using the *Apple Find My* app. Never lose a thing again while making a positive impact.

STRENGTHS :

- **BOOMPODS TAG** attaches to your items and integrates seamlessly with the Apple Find My app to help you locate them. The durable, colorful, and tactile pod syncs effortlessly with your Apple device, providing real-time tracking on a map while ensuring privacy with encryption.
- **How does it work?**
BOOMPODS TAG emits a secure Bluetooth signal that nearby Find My network devices detect and relay to iCloud, displaying the location in the Find My app. This process protects your privacy and is designed to be efficient on battery and data.
- **Community support:**
If your item is far away, the Find My network, powered by millions of Apple devices globally, assists in tracking it down.
- **Fast, loud, and eco-friendly:**
Need to find your keys quickly? Activate the BOOMPODS TAG's 94dB alert through the app. It's rechargeable via USB-C, waterproof (IPX7), and crafted from 100% ocean-bound plastic—no more coin batteries.
- **Eco-conscious design:**
With its rugged, pod shape and recycled plastic construction, it easily attaches to belongings, offering years of sustainable use.
