DESCRIPTION :

Bumping your watch against mountain rocks on mountain tops? Or hitting it against dripstones in underground caves? No worries! This scratch, shock, and drop-resistant full-body protection from PanzerGlass[®] is tougher than tough and keeps your watch safe from the hazards of an adventurous-and-not-so-ordinary life. It has even been drop-tested under 1 x Military Grade Standard conditions, which means it can withstand several drops from a height of 1.2 meters.

The full-body protection is slim yet robust, protecting and prolonging the lifetime of your watch so that one day you can pass it on to someone else who will love it just as much as you do. This is one way of working toward a more sustainable future. Another is to use less packaging: In 2024, we reduced the amount of paper in our PanzerGlass core product packaging design by an average of 66%* and deliver all our products in recyclable FSC[™]-certified boxes.

The full-body protector covers the entire front as well as the curved sides of your watch, while still providing easy access to all controls. It also has a smudge-free coating that reduces traces of fingerprints and grease. Installation is easy – just click on the screen protector and you'll never again fear the screeching sound of glass against metal. This may never happen, but if it does, you'll regret not having clicked "add to cart".
