Tiloli.

DESCRIPTION :

The Aqara E1 curtain motor offers a simple and efficient solution to automate your curtains. Easy to install on your existing rails or rods, it seamlessly integrates into your décor without requiring complex modifications. Compatible with various smart home systems, it allows smooth control of your curtains based on your needs and daily routines.

Its discreet design and practical use make it an ideal choice for modernizing your space while adding extra comfort to your daily life. The Aqara E1 curtain motor adapts to your preferences and easily integrates into a connected environment.

STRENGTHS :

Supports Most Curtains
The Curtain Driver is available in two versions: the Rod Version supports all types*, while the more economical Rail Version only supports U and I rails.**

Integrated Light Sensor
The built-in light sensor allows you to control the Curtain Driver based on brightness, saving energy for cooling and providing better comfort for your eyes.

Wide Ecosystem Support
Compatible with a wide range of ecosystems and voice assistants, including HomeKit, Alexa, Google Assistant, IFTTT, and future Matter support.

Up to 1 Year of Battery Life Between Charges*
Choose from a large 6400 mAh rechargeable battery, offering up to a year of use, or keep it powered continuously via the USB-C port.

Easy Installation and Setup

Simply mount the Curtain Driver E1 onto your existing curtain rail and complete the setup using the Aqara Home app.

Zigbee 3.0 Protocol

Zigbee, the most stable and reliable smart home technology, is used to support automations and cloud integrations.

Multiple Controls and Automations

Use an Aqara switch as a physical controller, or control the curtains based on schedules, sunrise/sunset, weather, geofencing, and other custom automations.

Maximum Load of 12 kg

The powerful motor allows the Curtain Driver E1 to pull and push up to 12 kilograms, supporting curtains made from various materials.

- Telescopic rods are not supported.

   ** The rod version supports rods, U rails, and I rails; the rail version supports U and I rails.

   *** Actual battery life may vary depending on the curtain's weight, rail length, and friction.

CHARACTERISTICS :

Wide Compatibility

The Curtain Driver E1 is compatible with a wide range of smart home ecosystems and voice assistants.

Supports Apple HomeKit, Amazon Alexa, Google Assistant, IFTTT, and more. Matter support will be available through an OTA update for Aqara hubs after the official Matter specifications are released.

* Matter support may not be available at launch and will be rolled out as an OTA update for a compatible Aqara Zigbee 3.0 hub.

- **Color:** White
- **Controller Type:** Remote Control
- **Batteries:** 1 required lithium-ion battery (included) (non-replaceable)
- **Hub Required:** Yes (Aqara Zigbee 3.0 Hub)
- **Item Weight:** 1.02 lbs / 461 g
- **Movement Speed:** 12 cm/s
- **Operating Temperature:** [not specified in the image]
- **Product Dimensions:** 5.7 x 3.78 x 1.81 inches (140.5 × 96 × 44 mm)
- **Rated Current:** 1.5 A
- **Rated Input:** 5 V
- **Compatible Devices:** Aqara, Apple Home, Alexa, Google Home, and IFTTT
- **International Protection Rating:** [not specified in the image]
- **Operating Humidity:** 0 ~ 95 % RH, no condensation
- **Rated Current:** 1.5 A
- **Rated Input Power:** 7.5 W

- **Wireless Protocols:** Zigbee 3.0
- **Included Components:** Aqara E1 Curtain Motor (rod version), USB-C to USB-A cable × 1, clips × 8, rubber strip (3 m) × 1, rod accessory × 1
