DESCRIPTION :

Protect your home with the Aqara P2 door and window sensor. Thanks to its advanced technology, it detects every opening and closing in real time and triggers smart automations tailored to your daily life. Compatible with Matter and Thread, it seamlessly integrates into your smart home ecosystem. Easy to install and featuring long battery life, it ensures peace of mind and control wherever you are.

STRENGTHS :

- **Native Matter support**

Connect directly to Apple Home, Google Home, Amazon Alexa, and more.

- **Thread protocol**

Provides robust communication, low latency, and mesh compatibility with Thread.

- **Local automations**

Works without the cloud for seamless and secure integration with your smart home ecosystem.

- **Local and remote alarm**

Receive real-time alerts on your smartphone, wherever you are.

- **Easy and flexible installation**

Durable adhesive mounting with an alternative magnetic plate for more flexibility.

- **Future-proof with OTA updates**

Anti-tamper alarm, adjustable sensitivity, programmable button, and more features coming soon.*

- **Seamless Matter interoperability**

Simplifies smart home experience and expands connectivity between devices and platforms.

- **Compatibility with major ecosystems**

Works with Apple Home, Google Home, Amazon Alexa, Samsung SmartThings, and soon with Aqara Home via the M3 Hub.*

* Some features may vary depending on the ecosystem and require a Matter-compatible Thread Border Router.
