SMART LOCK U200 BLACK

Keyless smart lock, Aqara Home management, Matter compatible, and fingerprint unlocking

REF : AQ-EL-D02DBLK

EAN : 6970504219922

EXISTS IN : BLACK, SILVER

DESCRIPTION :

Upgrade to keyless living with the Aqara Smart Lock U200 Kit, easy to install over your existing lock without drilling. This smart lock supports various entry methods such as fingerprint, NFC, passcode, and more, and integrates with Apple Home keys. Compatible with Matter, it is managed via the Aqara Home app. Built to last, it offers a six-month battery life and an IPX5 waterproof rating, making it ideal for both indoor and outdoor use.

Disclaimer: The U200 is currently only compatible with the Aqara M3 hub and not with other Aqara Zigbee hubs.

Apple Home & other unlocking methods: The U200 offers several practical methods, including Apple Home, fingerprint, passcode, NFC (not included), and more. Control the lock via the Aqara app, Bluetooth, or Thread for remote access. It also supports temporary passcodes and mechanical keys for emergencies.

Silent mode & automatic locking: The silent mode allows discreet unlocking. With the integrated gyroscope, the U200 alerts you if the door is left open and locks it automatically after closing through the Aqara Home app (update required).

Rechargeable battery & multiple power options: The rechargeable Li-Ion battery provides up to 6 months of battery life (up to 8 daily actions), with AAA batteries for the keypad and a wired power option. It works in temperatures from -15°C to 66°C, and the keypad is IPX5 rated for outdoor use. (Wired power requires 12V-24V AC/DC.)

Easy installation & wide compatibility: Installation without drilling, compatible with existing door locks (Euro profiles and some Scandi cylinders). Check compatibility with your door before purchase.

Enhanced security: The keypad features tamper alerts, AES encryption, and a security module to protect your data and access to your property.

STRENGTHS :

- **Apple Home Keys & Various Unlocking Methods:** The U200 supports Apple Home Keys (requires 2-in-1 Matter controller & Border Router), fingerprint, password, NFC (optional), and more. It integrates with the Aqara Home app for Bluetooth or Thread remote control, and supports temporary passwords for easy sharing. Mechanical keys are available for emergencies.

- **Advanced Software Control:** Features include Quiet Unlock Mode, automatic alerts, hands-free unlocking, Activity Log, automatic locking, Anti-peep Pin Code Protection, Passage Mode, and temporary offline passwords via the Aqara Home App.
- **Native Matter Support over Thread:** Seamlessly integrates with Apple Home and Google Home, providing efficient remote management and extended battery life.
- **Rechargeable Battery & Multi-Power Options:** IPX5 waterproofing, operating range from -15°C to 66°C, and multiple power options: rechargeable Li-Ion (up to 6 months), AAA batteries for the keypad, and hard-wired capability for reliable performance in any environment.
- **Easy Installation & Wide Compatibility:** Simple installation without drilling, compatible with Euro profiles and select Scandi cylinders (verify compatibility before purchase).
- **Enhanced Security Features:** AES encryption and fingerprint module encryption ensure top-level data protection and secure access.

Disclaimers:

- *NFC cards available in select models (U200 Kit).*
- **Fingerprint setup can be done locally on the lock using the Admin's password.**
- **Settings require direct Bluetooth connection.**
- ***Anti-peep protection allows input of any digits before and after the code.**
- ***** U200 supports integration with Apple Home, Google Home, and Amazon Alexa, with Samsung SmartThings compatibility coming soon.***
- ***** Battery life based on up to 8 daily unlocks/locks with fingerprint/NFC.***
- ***** AAA batteries are non-rechargeable; hardwired setup requires 12V-24V AC/DC power supply.***
- ***** Designed for compatibility with cylinders that can be unlocked from the outside even with a key inserted inside.***
