

CLARITY ACTIVE STYLUS PEN 2

Stylus compatible with ALOGIC Clarity touch-enabled monitors and Microsoft Surface devices supporting MPP protocol styluses

REF : AL-ALASS2

EXISTS IN : GREY

DESCRIPTION :

The Clarity Active Stylus Pen 2 is the ultimate tool for artists, designers, and professionals who demand precision and fluidity. With **4096 levels of pressure sensitivity** and **tilt recognition**, it offers a natural and intuitive drawing experience. Whether you're sketching, annotating, or painting on a **Clarity Touch monitor** or a **Microsoft Surface™**, this stylus enhances your workflow with effortless responsiveness.

Its built-in **digital eraser** lets you correct mistakes in a flash, while the **quick-action button** provides instant access to shortcuts. **No pairing required**—just pick up the stylus and start creating. And with a **magnetic attachment**, you can securely store it on the Clarity Touch monitor when you're done.

Forget about disposable batteries—its **USB-C rechargeable battery** lasts over **100 hours** on a single charge. Plus, it comes with a **replaceable tip**, ensuring long-lasting performance.

Compatible with Microsoft Surface™ and other MPP 2.0 devices, the Clarity Active Stylus Pen 2 is where art meets technology.

STRENGTHS :

- **4096 levels of pressure sensitivity** for precise control
