

AIRFLY PRO 2 WHITE

Wireless transmitter for wireless headphones

REF : TW-TS-2411

EAN : 0811370025636

EXISTS IN : WHITE

DESCRIPTION :

AirFly Pro 2 is a wireless audio adapter that lets you use your Bluetooth earbuds or headphones in places equipped only with a 3.5 mm headphone jack, such as on airplanes or gym equipment.

With its ability to connect two headsets simultaneously and its new intuitive controls, it offers an enhanced wireless listening experience.

Its extended battery life of over 26 hours and new features, such as a battery indicator and a mute button, make it an essential accessory for traveling and enjoying your music with complete freedom.

STRENGTHS :

- New power button that automatically switches to pairing mode for a single device
- New volume buttons
- New battery indicator: press the "plus" button twice to see one flash (25%), two flashes (50%), three flashes (75%), or four flashes (100%)
- New mute button: press the "minus" button twice to activate mute
- You can still pair another device, transmit and receive, and the battery life has been extended beyond 25 hours

CHARACTERISTICS :

- Audio connection: 3.5 mm jack
- Headphone connections: 2 pairs
- Dedicated pairing buttons: Yes
- Volume control: Yes

- Battery life: 26+ hours
- Included: Charging cable, travel pouch, key ring
