PROCHARGE 67W

Wall Charger GaN² 67W White
REF : LQ-LQ48032
EAN : 8720574622591
EXISTS IN : WHITE

DESCRIPTION :

Seamlessly charge smartphones, tablets and even laptops with this powerful and stylish Wall Charger! This 67W GaN² Wall Charger is designed to be more compact and powerful than ever before. Its stylish and minimalistic character perfectly fits your office or home. This Wall Charger ensures a 50% charge of a MacBook Air, or similar USB-C laptop, within just 30 minutes. Create an optimal seamless experience by combining this Wall Charger with a LINQ Pro Cable.

STRENGTHS :

- **Stylish and Seamless**
  With advanced LINQ LogiQ fast charge technology and a stylish and refined design, this Wall Charger brings a seamless charging experience. Also, this product combines premium design with high-end technology, making this Wall Charger the perfect accessory to charge your (Apple) devices in style.

- **LogiQ Engineering – Compact and powerful charging**
  By adding GaN² technology to the LogiQ engineering, power distribution is intelligently optimised, charging speeds maximised, and loss of energy minimised. This results in a high capacity and an ultra-light and thin Wall Charger. With this 67W GaN² charger, you energise all your devices, seamless, sleek, fast, reliable and energy-efficient.

- **Fast charging with 67W USB-C PD**
  Thanks to its compact design, this 67W GaN² Wall Charger is perfect for your office or home, or wherever you are working from. The 67W USB-C PD port provides high-speed charging for the latest smartphones, tablets and small USB-C laptops. You won't need any additional adapters, simply plug in and seamlessly power up your laptop to 50% in less than 30 minutes.

- **A reliable and safe charging experience**

  This charger is equipped with multiple advanced safety features to protect your connected devices as well as your charger. The built-in overcharge, short-circuit, and thermal mechanisms safeguard against any potential mishaps, providing you with peace of mind during every charging session.

- **50% GRS certified recycled plastic**

  By choosing GRS certified recycled plastic for this Wall Charger, we are able to give new life to materials. Diverting plastic from landfills and oceans, that would otherwise take centuries to decompose. Not only does the use of recycled plastic benefit the planet, but this material also maintains the highest standards of quality and durability. LINQ aims to reduce its carbon footprint and contribute to a better environment.

CHARACTERISTICS :

- Power: 67 W
- Lengt: 9 cm
- Width: 3 cm
- Height: 5 cm
- Weight: 102.00 g
- Output Type: USB-C PD
- Number of Outputs: 1
- Material Recycled ABS
