PROCHARGE 140WWall Charger GaN² 140W White

REF : LQ-LQ48033

EAN : 8720574622607

EXISTS IN : WHITE

**DESCRIPTION :**

Seamlessly fast-charge smartphones, tablets and heavy-duty laptops with this minimalistic and stylish 140W USB-D PD GaN² Wall Charger. Perfect for charging laptops like a MacBook Pro 16", it charges up to three devices simultaneously at full speed. This Wall Charger is more compact and more powerful than ever before and its clean and sleek design complements your office or living room. Combine this 140W triple-port Wall Charger with a LINQ Pro Cable to get the most out of it, without compromising. Expand your charging power and reduce charging times with this premium 140W Wall Charger.

STRENGTHS :

- **Sleek and Seamless**

With the advanced LINQ LogiQ fast-charge technology and a stylish and refined design, this Wall Charger provides a seamless charging experience. Also, the Wall Charger combines premium design with high-end technology, making this the perfect accessory to charge your devices in style.

- **LogiQ engineering – Fast charging with 140W USB-C PD3.1 EPR output**

The 140W GaN² Wall Charger is designed to charge heavy-duty laptops. By adding a 30W and a 100W USB-C PD port, this charger is also ideally suited for energising a wide range of other devices.

The three different USB-C PD ports not only charge the latest smartphones and tablets but also the newest generation 140W USB-C laptops. No need for an additional adapter to charge these types of laptops, thanks to the 140W USB-C PD3.1 output. You energise a heavy-duty laptop to 50% within 30 minutes.

- **GaN²: Next-Gen Power, Size, and Efficiency**

The GaN² technology features intelligent circuitry to optimize power distribution, maximize charging speeds and reduce energy waste.

With this LINQ GaN² Wall Charger, you can enjoy fast, reliable, and energy-efficient charging for all your devices. More power packed in a smaller casing to create a high-power charger without compromising.

- **Reliable and Safe Charging**

This 140W Wall Charger is equipped with several advanced safety features, to protect the connected devices as well as the charger. The built-in overcharge, short-circuit, and thermal protection mechanisms safeguard against any potential mishaps, giving you peace of mind during every charging session.

- **50% GRS certified recycled plastic**

By choosing GRS certified recycled plastic for this premium Wall Charger, we are able to give new life to materials. The use of this material not only benefits the planet. This high-end material features the highest standards of quality and durability. This way, LINQ contributes to a better environment and reduces its carbon footprint.

CHARACTERISTICS :

- Power: 140 W
- Length: 11 cm
- Width: 3 cm
- Height: 8 cm
- Weight: 297.00 g
- Output Type: USB-C PD
- Number of Outputs: 3
- Material: Recycled ABS
